## **Please Note**

**This publication is intended as a brief introduction to the basic Copy Mode functions of the Riso Comcolor X1 Series printer.**

**For full instructions please refer to the user guides supplied with the Riso machine.**

# A4 / A3 Producing a Copy

**Please note:** Comcolor X1 Series model 3110 will not print full A3 size as it has a maximum print width of 210mm. Model 3110 is equipped with a single paper feed tray

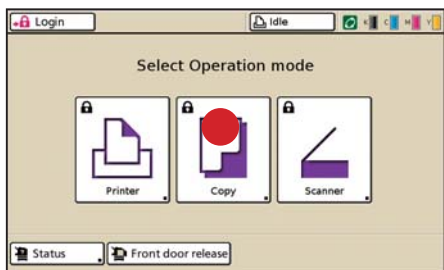

**A** Load the original(s) in the ADF of the Comcolor scanner in the following orientation:

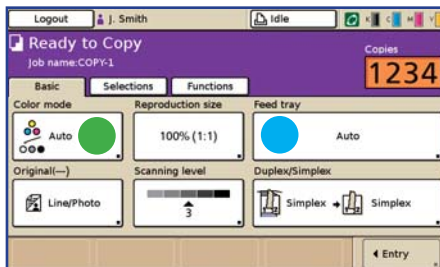

A4

A3

**B** Select "Copy" Mode ●  
Please note login may be required.

**C** The "Copy Mode" panel will now appear:

- 1). ● The "Color Mode" should be set to "Auto"  
*This can be changed to "Black" if you want to convert colour documents to black and white*
- 2). ● "Feed Tray" should be set to "Auto"  
*In this setting the output paper size will be matched to your original size.*

**D** ● Select number of copies required.

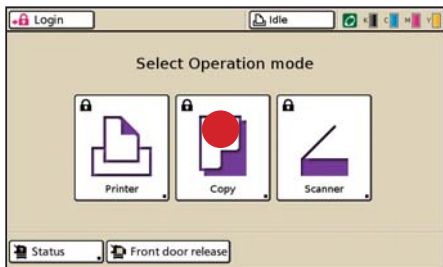

- 1). ● Press green "Start" button
- 2). ● Press red "Pause" button to pause job if required

# Enlarging A4 to A3

3). Press "OK"

# General Machine Care

## Cleaning the Scanner Glass

Ensure both sections of scanner glass (shown here in blue) are kept clean to avoid marks on copies

## Using the Scanner

When using the scanner place originals face up and as far into the document feeder as possible

Ensure side guides are firm against the originals

## Loading Paper

Always ensure the guides on the paper tray are firm against the paper

The locking levers must be in the down position

## Paper

When reloading paper stock always use complete reams of fresh paper.

## DO NOT USE any of the following

- Paper that is damp or curled
- Glossy or coated papers
- Film or transparencies
